

WANTED: Weather Observer

The National Weather Service in Wichita, Kansas is looking for a weather observer for the Howard area of Elk County in Kansas. This person will be responsible for providing a daily report of the high and low temperature along with any precipitation. Even though this is a volunteer position we will be supplying you with a high quality rain gauge and electronic max/min thermometer that we will setup for you. The observation should not take up more than 5 minutes of your time and will maintain weather records for Howard that have been in place since 1912.

If you have an interest or need more information

E:mail Leon.Wasinger@noaa.gov with your Name and Phone Number

Thanks!

Leon Wasinger
